

## Good Afternoon Advocates!

Tuesday, July 28...the **Campaign to Protect Ohio's Future** needs your help to document the devastating effects of state cuts on services for Ohio's citizens and on the agencies that provide those services. We recognize that with increasing needs and decreasing resources, it is even more difficult to take on another task. However, it is critical that human service providers - both public and private - document what is happening as a result of state budget cuts. We will use this information to educate the public and elected leaders to help restore funds badly needed in our communities. Please take a moment and share with us what your organization is experiencing.

The **Campaign to Protect Ohio's Future** is a coalition of health, human services, primary and secondary education and higher education organizations seeking to protect Ohio's most vulnerable citizens by restoring or adequately funding vital services through a responsible budget that has - as its primary priority - to meet basic human needs (food, shelter, clothing and medical care) and provide a safety net for the most vulnerable Ohioans. A responsible human services budget should ensure opportunity for low-income Ohioans to achieve self-sufficiency through education, training, work, and supportive services.

*Gayle Channing Tenenbaum and Margaret Hulbert Co-Chairs,*
